

**EVERY HOUR.**  
**ENCOMPASS**

**OFF-HIGHWAY  
PROTECTION PLANS**

## Every Hour. Every Day. Every Country.

Encompass gives you the kind of extended coverage other diesel manufacturers simply can't match:

- **International.** Can be purchased virtually everywhere in the world.
- **Universal.** Available on almost every Cummins off-highway diesel engine.
- **Portable.** Travels with your Cummins-powered equipment...wherever it goes.
- **Transferable.** Extends to new owners everywhere.
- **Flexible.** Multiple years of coverage are available.
- **Complete.** Available with no hourly restrictions.

## Everywhere You Do Business.

If you're doing business on a worldwide basis, you need the global protection of Encompass. You can buy your equipment in Egypt, ship it to Chile, then move it to another job site in India, and your Encompass coverage will be continuous. Encompass travels anywhere Cummins authorized warranty service is available...and that's virtually everywhere.

## Every Option.

Unlike post-warranty coverages offered by other diesel manufacturers, Encompass offers a choice of coverages with or without hourly limits. With Encompass unlimited plans, you're covered for the duration...regardless of how many hours your engine puts in.

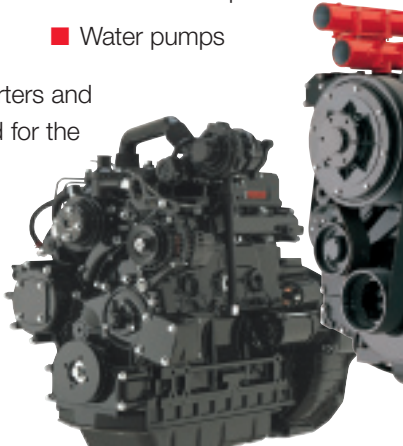

## What Encompass Covers:

Encompass covers every engine component included under Cummins base warranty.

After three years (two years for QSK19, QSK23, QST30, QSK45 and QSK60), the following components and procedures are excluded:

- Air compressors
- Belt tensioners
- Belts and hoses
- Fan clutches
- Fan hubs
- Fan idler pulley assemblies
- Injection and fuel pumps
- Injectors
- Non-Cummins accessories
- Overhead sets
- STC oil control valves
- Turbochargers
- Vibration dampers
- Water pumps

Cummins branded starters and alternators are covered for the first 2 years or 2,000 hours on all engines.

## **Encompass Requirements:**

Must be purchased within six months of date-in-service of equipment.

Cummins recommended preventive maintenance procedures must be followed to qualify. See your Cummins Operation and Maintenance Manual for details.

Abuse, neglect, accidental damage or normal wear and tear are not covered.

All repairs under Encompass are to be performed by a Cummins distributor or full-service dealer.

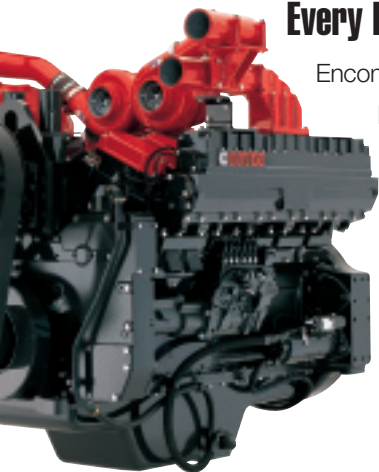

Excessive oil consumption or blowby is not covered under this program.

A \$200 USD deductible charge (\$300 USD for QSK19 through QSK60 engines) per service visit is the responsibility of Encompass customers.

(Maximum coverage for all engine models used in Forestry/Logging applications is 3 years/unlimited hours.)

## **Every Engine.**

Encompass protection plans are available for almost every diesel engine in the Cummins off-highway lineup, from the A1400 to the QSK60.

## **Every Need.**

Encompass options include up to three years of coverage on Cummins A Series and B3.3, and up to seven years of coverage on Cummins off-highway engines from the B3.9 to the N14. The QSX is available with up to five years of coverage, and there is up to four years of coverage on the QSK19 and QSK23. The QST30, QSK45 and QSK60 are available with up to three years of coverage.

Encompass gives you a choice of parts only, parts and labor, or parts, labor and travel coverage. And, on certain models you can specify hourly limits. Encompass lets you buy the coverage that best suits your needs. It doesn't matter where you bought your Cummins-powered equipment, Cummins Encompass has you covered.

## **Every Owner.**

Cummins Encompass protection plans are transferable at any time during the life of the coverage at no charge. Bring your serial number to one of over 5,500 Cummins dealers or distributors near you.

## **Every Question, Answered.**

For more details, please call your local Cummins dealer or distributor, or phone 1-800-DIESELS (1-800-343-7357).

Or visit [www.everytime.cummins.com](http://www.everytime.cummins.com).

Encompass is the worldwide protection plan you can count on. Every time.
